If the class and test information is correct click on **Start Your Test**

Test Navigation SAMPLE QUESTION:

QUESTION 6

This is the question.

Question:

Find $m\angle 2$ if $\angle 1$ and $\angle 2$ form a linear pair and $m\angle 1 = 62^\circ$

Click on the flag if you aren't sure of the answer you want to choose and want to come back to answer it later.

Answer:

The **ABC** next to the answer choice lets you "cross out" the answers you think are not right. Press the **ABC** a second time to make the answer reappear.

- a 28°
- b 52°
- c 62°
- d 118°

Answers: choose the answer choice you think is correct by clicking on the circle next to the letter.

Status Bar: shows how many questions you have answered and how many questions are left.

Navigation Buttons:

1. The pause button lets you stop the clock on the test.
2. The "View Test Summary" button lets you see which questions you have answered and which ones are unanswered.
3. The Left arrow button lets you go back one question.
4. The "I'm ready for the next question" button takes you to the next question.
